THE NATIONAL FEDERATION

The National Federation of State High School Associations (NFHS) is an organization of 51 autonomous state high school athletic and/or activity associations and the association of the District of Columbia. Additionally, interscholastic associations of the Canadian Provinces Alberta, British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario and Quebec are affiliated with the NFHS as are associations from St. Croix, Guam, St. Thomas-St. Johns, and the Bahamas. Other affiliates are forensic associations of Michigan and Wisconsin, and music associations of Wisconsin and Florida.

Collectively, the associations, through their common commitment to high school athletic/activity programs form the NFHS. These organizations have established the NFHS as a means of maintaining cooperative, reciprocal relationships among all of the member associations. As the mechanism for maintaining these relationships, the NFHS provides a common forum for administering high school activities, through a democratic governance process, by all who direct these programs.

Through its national office in Indianapolis, the NFHS has established an administrative entity to coordinate and support the functions of the organization. The administrative office is a convenor of a large number of meetings and committees for the promulgation of rules, publisher of extensive media materials to support the operations of the organization, and is a resource for and a repository of information/data on high school athletic/activity programs.

As stipulated in the NFHS Constitution, the legislative body of the organization is the National Council (executive directors of the member state associations), which annually elects a specified number of members to staggered terms on the Board of Directors, the administrative entity which conducts the business and day-to-day operations of the organization through the executive director and administrative staff.

The NFHS is committed to diversity and inclusiveness in the administration of the organization. This commitment is achieved by providing opportunity for any National Council member to serve on the Board of Directors.

NFHS Statement of Philosophy

Sports and performing arts have always been part of the educational process of youth.

In the United States, such activities were organized at the collegiate and secondary school levels in the early 1900's. In the 1920's, a small number of state high school athletic associations organized themselves and grew in numbers to evolve into a national entity which became the National Federation of State High School Associations.

The NFHS, the voice of interscholastic activities, is committed to the belief that interscholastic activities are basic to sound educational principles of secondary education. Activities are a social force which teach values/achievement for physical, psychological and emotional growth in the education environment.

Participation in activities reinforces responsible social processes. Educational experiences gained through activity programs are opportunities to learn, promote and reinforce the elements that influence students to become productive citizens in a democratic society. Productive citizenship may be demonstrated through accepting responsibility, self-worth, sportsmanship, integrity, fairness, optimism, self-sacrifice — placing the welfare of others ahead of self, acceptance of others regardless of abilities or background, dignity, self-

respect/discipline and thinking independently while having a commitment to group or collective goals which go beyond winning.

These are the values that reflect the educational curriculum of interscholastic activities. In its developmental stages, as today, the central commitment of the NFHS is to support and enhance at the national level the interaction between and among the member state associations in their efforts to administer and direct participation of their respective member schools in activities programs.

The NFHS is dedicated to the continued development and maintenance, through common agreement of its members, of standards for participant eligibility, rules and conditions for the administration of contests. In deference to the standards, rules and conditions, the NFHS membership is committed to enhance and stimulate interest in and thereby involve and provide greater access to increasing numbers of students for participation in activities.

Participation in interscholastic activities is accorded to students who meet essential standards of eligibility adopted collectively by state association member schools and additional standards as may be adopted by individual schools for their respective student participants. The NFHS membership is dedicated to development and implementation of standards, policies and regulations essential to assist member schools in the furthering of their educational philosophy of interscholastic activities. Toward this end, the membership is pledged to keep school-sponsored contests in perspective as a part of the total educational program at the local, conference, district and state levels.

The NFHS believes it is imperative to maintain articulation and cooperative relationships with other educational and/or non-school organizations involved in amateur athletics or with interests in high school activities programs. These relationships are mutually beneficial to all organizations involved and the individual participants as a means of preserving the integrity of the programs and the amateur status of participants. It is the position of the NFHS that activities are for enjoyment, recreation, entertainment, the promotion of healthy lifestyles, sports for the sake of sports and opportunities for greater fulfillment of interests and aptitudes of youth.

The NFHS continues to make efforts for the continuing assessment, review and evaluation of current parameters and practices utilized in programs to improve the quality of and make more accessible a range of activities to challenge the interests and abilities of student participants.

The overriding commitment of the NFHS membership is the health, welfare and moral growth of students who participate directly and indirectly in high school activities programs. This commitment is being achieved through a continuing, unified effort of the NFHS membership to maintain the highest ideals of fair play, ethical behavior and responsible citizenship in a democratic society.

One of the primary missions of the school-college community is to teach participants essential skills that will provide for a lifetime of contributions to their community. Sports and fine arts activities are conduits through which people feel part of the community and thus can be effective vehicles for promoting citizenship in this country.

Further, sports and fine arts activities provide not only the opportunity to teach and learn respect for self and respect of others, but can also place participants in a unique context — competition — that can further instill values necessary for the development of respect for self and others.

In addition to these inherent benefits enjoyed through participation in athletic and fine arts programs, high school students can learn the meaning of good citizenship, and can carry those lessons with them throughout their entire lives.

IHSAA History

The Idaho High School Activities Association began when the youth of Idaho high schools desired athletic competition. In the absence of organized teams, they started their own. Without a governing body or involvement from the schools, disputes were settled by fights between neighboring communities. While the schools were not involved directly, they were blamed and embarrassed through association with the teams. The high schools had a decision to make. They could allow athletic competition to continue without school affiliation, try to stop it, or sponsor the competition and attempt to improve the safety and quality of the competition and protect the schools. They accepted the third option with reservations.

While many problems were solved, more were created including the participation of non bona fide students and students staying in school just to continue competing. However, the benefits ultimately outweighed the detriments as school enrollment increased dramatically between 1923-24 to 1924-25 prompting Caldwell's Mr. William Gartin to say, "How much of this increase is due to organized athletics is impossible to say, but it is evident the effect of interschool athletics has been most helpful."

The IHSAA was first organized in 1925 as an activity association involving basketball (boys and girls), football, track, debate, declamation, commercial contests and many other interschool activities. The constitution of the Association was adopted in 1926, and it became an athletic association. It continued as such until 1949 when it became an activities association again.

In 1983, the Association was reorganized as an Idaho nonprofit corporation. Membership in the corporation replaced the Legislative Council and the Board of Directors replaced the Board of Control. As a nonprofit corporation, broad exposure to legal liability was reduced, real property could now be acquired and a tax-exempt status was obtained so that contributors can make tax-deductible gifts to the Association and its fundraising activities would not be taxable.

The IHSAA grew with the Idaho Education Association and was closely affiliated with it for many years. Mr. John I. Hillman served both organizations as the Executive Secretary. The Delegate Assembly of the IEA was one and the same as the general membership of the IHSAA, and the six activity districts, as we know them, were IEA districts in the beginning.

In 1984, the United Dairymen of Idaho became the official sponsor of all IHSAA state tournaments.

The Association has been blessed with many outstanding leaders through the years, as board members and executive officers. The strength of the IHSAA is dependent on outstanding leadership in member schools. Dedication to quality programs, both past and present, has brought us to a place where everyone involved in activities can proudly say, "Activities really are the other half of education!"

The mission of the Idaho High School Activities Association is to coordinate, supervise and direct interscholastic activities that enhance and protect the total educational process of all student participants.

All activities programs shall be formulated to promote citizenship and the academic mission of the school.

Assignment of Officials

All sports officials used in contests involving grades 9-12 must be certified by the IHSAA. A list of certified varsity and non-varsity officials will be sent to each commissioner. While the IHSAA has established minimum requirements that all officials must fulfill, the IHSAA is not responsible for the assigning or rating of officials during the regular season, and cannot guarantee all officials will be assigned to officiate interscholastic contests. Each activity district's Board of Control retains these responsibilities. The sport commissioner in each district typically assigns all officials for varsity contests. Officials for non-varsity contests may be assigned through appointed persons or secured independently. Selection and assignment of officials for state level competition is administered by the IHSAA.

The IHSAA Code of Ethics for Officials

Believing I am an important part in the nationwide school athletic program, I pledge to act in accordance with these principles:

1. I will honor contracts regardless of possible inconvenience or financial loss.
2. I will study the rules of the game, observe the work of other coaches and/or officials and attempt to improve the game and myself.
3. I will conduct myself in such a way that attention is focused on the young people playing and not myself.
4. I will maintain my appearance in a manner respectful of the dignity and importance of the game.
5. I will cooperate with the media, but I will not make statements concerning officials' decisions after a game.
6. I will uphold all rules of the IHSAA and the National Federation and give my complete cooperation to my school and the IHSAA.
7. I will shape my character and conduct so as to be a worthy example to my students on my team.
8. I will be professional in my association with other coaches and officials.
9. I will remember the game is more important than the wishes of any individual.

IHSAA Dues Structure

Each school will have base dues of \$150. In addition, high schools will be charged \$25 per activity. Junior highs will be assessed \$10 per activity for IHSAA and/or National Federation manuals and rules books.

Eligibility Verification

Verification of the athletic eligibility of student-athletes is the responsibility of the principal of each school. All participants in activity contests sponsored by the IHSAA must meet the eligibility regulations in each of the following:

1. Physical exam
2. Age
3. Number of semesters of eligibility
4. Attendance the previous semester
5. Number of subjects passed previous semester
6. Transfer students - permission to compete received from IHSAA

The Eligibility Verification link can be found on the website, idhsaa.org, and must be filed with the Idaho High School Activities Association for each sport in which your school participates. Be sure to fill out the form even if your school doesn't participate in the activities, entering 0 for participation numbers. The schools should keep a copy for their files and one can be downloaded after completion of the form.

Junior high school principals should complete the Eligibility Verification form for the IHSAA even though their students participate in the high school program and need not be verified by the junior high.

2025-2026 Filing Dates Deadlines

Sept. 19	Football, Cross Country, Volleyball, Soccer, Swimming, 6A/5A Golf
Jan. 23	Basketball, Wrestling, Competitive Dance, Competitive Cheer
Apr. 17	Baseball, Track, Tennis, 4A/3A Golf, Softball and Activities Participation

A late filing fee of \$5.00 per gender per sport will be charged for failure to file on or before the deadline.

Physical Examination

The Idaho High School Activities Association requires that an athlete receive a physical examination and/or complete the interim questionnaire prior to his/her first practice in any IHSAA sponsored sport (grades 9-12). Physicals are required prior to the first day of practice in the 9th and 11th grades. A student will not be required to have an additional physical examination during the 10th and 12th grades unless:

1. The physician recommends the student have an additional physical examination.
2. The parents request an examination via the interim questionnaire.
3. Affirmative answers on 1-10 of the interim questionnaire indicate a possible need for a repeat physical examination.
 - a. It will be the responsibility of each principal to consult with a licensed physician regarding any answers to questions given on athletic interim questionnaires, which may indicate a possible need for a repeat physical examination.
4. A transfer athlete had a physical examination during the preceding year in another state.

NOTE: The physical examination must not be completed before May 1 of the athlete's 8th or 10th grade year in order to count for the next two years. Physical examination forms are available on the website, idhsaa.org.

The original, completed Idaho Health Examination and Consent form must be on file at the school prior to the first day of practice.

Interim Questionnaire

The interim questionnaire is a consent form that must be completed prior to the first practice in the 10th grade and 12th grade years. The form must be kept on file in the school administrator's office.

Activity Cards

IHSAA activity cards are issued to superintendents, school trustees, principals, athletic directors, coaches and officials of athletics and activities. **The above individuals must be working directly with IHSAA sanctioned programs involving students in grades 9-12.** If a school has not paid the \$25 fee for an activity, no individual is eligible to receive an IHSAA activity card for supervision in that activity. For information regarding middle school/junior high cards, please contact the IHSAA office.

The card is non-transferable and admits the person whose name is on the card and one guest to any interschool activity sponsored by the IHSAA or by any member school. If the card is presented by a guest of the person whose name is on the card, only the guest will be admitted. The fee for each activity card is \$35 and must be ordered in writing by authorized school administrator (superintendent, principal, athletic director). Officials will be able to purchase an activity card during the registration process for the current year. Duplicate cards will cost \$20 each and must be ordered in writing by the school administration.

Only one card will be issued to each person. If an individual works at two schools, school districts, or holds two different positions, or any combination of the above, he/she will only be issued one card. School trustees who have received lifetime passes may not be issued an annual pass.

Misuse of cards: Use of the card is a privilege of the assignee. If at any time a local, district or state contest manager or their designee deems the privilege has been abused, the card may be confiscated. A confiscated card may be reissued by board action and the condition that the card holder be assessed a \$100 reinstatement fee.

Misuse of issuing cards: Member schools issuing cards to non-qualified personnel may lose the privilege to purchase activity cards for one calendar year.

The IHSAA reserves the right to revoke any card for improper use.

The top three participating schools in each classification with the best overall programs will be honored at the end of the year.

Deductions are made by the IHSAA for all fan, player and/or coach unsportsmanlike ejections during the year and also for unsportsmanlike school behavior at state championship events. Schools must participate in all three components to be considered for this award.

Academic Component: Points are based on cumulative team GPAs as submitted on the *Academic State Champions Application* or *Academic Report – Non Athletic Activities Form* by the due date for each season.

Athletic/Activities Component: Points are based on place of finish at twenty-one IHSAA-sponsored state championship events, baseball and All-State or State Solo for music.

Citizenship Component: Schools monitor their citizenship and sportsmanship activities throughout the year and submit a *School Self-Assessment Form* to the IHSAA in May. Points are based on self-evaluation of seven separate areas. Schools that complete the citizenship component
