1. Meet or surpass the state qualifying mark (3rd place time from previous 3-year average, not including 2020) in their particular event(s) in a sanctioned meet (one with four or more schools), or with electronic timing during one of the seven regular season meets or at the district qualifying meet (prelims or finals).
2. Provide proof that they were physically unable to compete at their district/regional meet. Such proof must be a letter from a physician, chiropractor, nurse practitioner or any medical practitioner licensed by the state, stating the nature of the injury/illness that prevented the athlete from competing at the district/regional meet, and also stating the athlete is released to compete in the state meet. Such proof must be presented by the head coach or athletic director prior to the conclusion of the meet to the district manager and **be approved** by the tournament management of the respective district/regional meet so that the athlete's name may be included on the list of "Special Qualifiers" sent to the IHSAA.
3. Compete in the particular qualified event at their district/regional meet and fail to qualify by place or mark because of an incident beyond the athlete's control that the meet referee deems a hardship to the athlete in question. Example: An athlete in an obvious qualifying place that is fouled or interfered with and is unable to finish the event at all or not to finish in a qualifying place.

- If School B qualifies in the boys 400 freestyle relay, the boys 200 medley relay and the girls 200 medley relay, they would be allowed to bring 4 female and 4 male relay-only alternates.

Only those students who have qualified for State or have been designated as a relay-only alternate will be allowed on-deck.

NEWS RELEASE

High School Swimming & Diving Rules Changes Address Number of Dives During Championship Meets

FOR IMMEDIATE RELEASE

Contact: Sandy Searcy

INDIANAPOLIS, IN (July 16, 2026) — Starting with the 2026–27 swimming and diving season, state high school associations will have the option to change the number of dives performed by participants during a championship meet.

This change highlights five rules proposals brought forth by the NFHS Swimming and Diving Rules Committee during its annual meeting, held March 22–24 in downtown Indianapolis. The NFHS Board of Directors subsequently approved all submitted rule changes.

Rule 9-4-2h (Choice of Dives) now states that “by state association adoption, the number of qualifiers advancing to the semifinal round may be increased.” An additional note states, “by state association adoption, states may alter the number of dives for their state championship series of meets.”

In its rationale, the committee pointed out that participation in high school diving continues to decline in many states, and reducing the number of dives could expand opportunities for student-athletes to participate in the event.

“The committee noted that the exception within the note is tightly crafted and limited to state association championship competition,” said Sandy Searcy, NFHS director of sports and liaison to the Swimming and Diving Rules Committee. “Allowing championship meet modification is consistent with other provisions in Rule 5-1-1 that allow states to address issues such as scheduling and affect only their own competitions, similar to deciding whether to contest events in other sports.”

Additional approved changes were made to rules regarding uniforms, electronic devices, and the form of individual events.

Under Rule 3-3-4b(2), wording was added to clarify that bonded or taped seams on suits are not subject to permeability requirements. This change mirrors standards established by World Aquatics.

Rules 3-5-1 and 3-5-2 were also updated to state that no competitor shall wear any audio (microphone) or video (camera) device during a race or dive.

Mirroring language was added to rules governing the butterfly (Rule 8-2-3g) and freestyle (Rule 8-2-4e), stating: "Once some part of the swimmer's head has passed the 5-yard/5-meter mark immediately prior to reaching for the finish, the swimmer may be completely submerged." The changes align with national trends in the sport.

"Sandy Searcy's leadership is greatly appreciated as is her passion for swimming and diving, and the same can be said for every member of the NFHS Swimming & Diving Rules Committee," said Rod Garman, chair of the Swimming and Diving Rules Committee and assistant executive director of the Kansas State High School Activities Association. "So much knowledge and expertise are evident during committee discussions of rules proposals and each member's contributions are valued. The listening and respect for one another is paramount when making such important decisions that impact education-based swimming and diving across the country."

A complete listing of the swimming and diving rules changes will be available on the NFHS website at www.nfhs.org. Click on "Activities & Sports" at the top of the home page and select "Swimming and Diving." The print version of the 2026-27 Swimming & Diving Rules Book will be available for purchase in late May at www.NFHS.com, and the digital version will be available via NFHS Digital at www.NFHS.org.

According to the 2024-25 NFHS High School Athletics Participation Survey, swimming and diving is the 10th-most popular sport for boys with 119,102 participants in 8,105 schools, and the ninth-most popular sport for girls with 138,303 participants in 8,465 schools.

GUIDELINES FOR HANDLING CONTESTS DURING **LIGHTNING DISTURBANCES**

The purpose of these guidelines is to provide a default policy to those responsible for making decisions concerning the suspension and restarting of contests based on the presence of lightning.

Proactive Planning

1. Assign staff to monitor local weather conditions before and during events.
2. Develop an evacuation plan, including identification of appropriate nearby shelters.
3. Develop criteria for suspension and resumption of play:
 - a. When thunder is heard, or a cloud-to-ground lightning bolt is seen, the thunderstorm is close enough to strike your location with lightning. Suspend play and take shelter immediately.
 - b. Thirty-minute rule: Once play has been suspended, wait at least 30 minutes after the last thunder is heard or flash of lightning is witnessed prior to resuming play.
 - c. Any subsequent thunder or lightning after the beginning of the 30-minute count reset the clock and another 30-minute count should begin.
4. Hold periodic reviews for appropriate personnel.

For more detailed information, refer to the *Guidelines for Lightning Safety* section contained in the NFHS Sports Medicine Handbook www.nfhs.org.
