

Henry “Hank” Powers – 1984 Hall of Fame Inductee

Hank Powers had a legendary career as a coach at Twin Falls High School in football, track, and golf. Many coaches tried to discover his secret, but that was just him being himself – a quiet, dedicated educator who was willing to put in the hours it took to do something right. He was ahead of his time with his knowledge of the science and technical aspects of sports. He was also known for taking a personal interest in people and inspiring his students to do their best as well. Because of his contributions Twin Falls High School gave the Hank Powers Award in his name to the most outstanding athlete in the high school.
